(2026-2027)

A Quick Guide for Parents and Students

1. Daily Device Rules & Care

- **Mandatory Take-Home:** Chromebooks must be taken home every night. Do not leave them in vehicles, lockers, or unsupervised school areas.
- **Fully Charged Daily:** Students are required to bring their device to school every day in a fully charged condition.
- **Cafeteria Ban:** To prevent accidental spills, Chromebook use is strictly prohibited in the cafeteria during lunch.
- **Device Integrity:** Chromebooks must remain completely free of any decorative writing, drawing, paint, tape, stickers, or labels.
- **Wearable Tech Restrictions:** Smartwatches, smart glasses, and smart jewelry must be securely put away in backpacks or lockers during all tests and quizzes.

2. Privacy, Safety & Monitoring

- **No Privacy Expectation:** The school monitors and archives all network activity, Google Drive files, and web history on school-managed accounts.
- **Classroom Monitoring:** Teachers use commercial software tools (GoGuardian) to view live student screens and filter content.
- **Inspection Rights:** Chromebooks are subject to periodic, random physical and digital inspections by school staff.
- **Privacy Zones:** All wearable technology must be powered down or put away between 7:30am and 4:00pm.

3. Academic Integrity & AI Policy

- **Mandatory Disclosure:** Students must clearly disclose whenever Artificial Intelligence tools are used to assist with assignments.
- **AI Restrictions:** AI tools may only be used for approved educational goals (like text-to-speech or adaptive learning). AI cannot write assignments or answers.
- **Zero Credit Rule:** Homework that is primarily AI-generated and lacks genuine student input will not be accepted for credit.
- **Recording Restrictions:** Taking hidden or unauthorized photos, videos, or audio recordings of peers, teachers, or staff is strictly forbidden.
- **Data Privacy:** Never type personal student information or data into any AI platform.

4. Infraction Levels & Consequences

Violation Level	Examples
Level 1 (Warning)	Off-task web browsing during independent work, using devices during teacher-led instruction, or failing to follow screen commands.
Level 2 (Parent Alert)	Repeat violations, using school email for non-school work, playing unauthorized games, or accessing inappropriate/profane material.
Level 3 (Family Meeting)	Cyberbullying, sexual harassment, intentional hardware damage, or theft.

 **Note on Device Restitution & Liability:** *If a device becomes lost or intentionally damaged, the student must perform restitution through school service (such as cleaning/organizing the Computer Lab) rather than making a financial payment. The school accepts zero financial liability for personal wearable devices brought to campus.*
